

Free Maker Lab Classes

for Municipal Employees
at the Library!

As a benefit to you, the Library is waiving the lab fees for our introductory classes for the Laser Cutter/Engraver, Long Arm Quilting Machine(s), Embroidery Machine, and Cricuts.

Yes, the Library has this stuff!

Over the Summer, for municipal employees and spouses, the \$5.00 lab fee (that covers the materials) is being waived. Unfortunately, children are not, because the MakerLab is not available to anyone under 18.

If you are interested, sign up on the Library Website under the "Calendar" button. Just mention that you are a Municipal Employee when attending and the Library will waive the lab fee.

If your department wants to schedule an outing or a special session to any one of these classes for 5 or more, contact Alan at the Library and he will schedule a special session.
